Youth worshipping.

Jess McAlexander preaching.

It was great to have Jess McAlexander and Ryan McIntyre with us for a little over a week... They were representing Trinity International Mission and came to install and set up video equipment for the church in Managua.

Ryan McIntyre preaching.

Services in Managua....

While here they were able to participate with our youth during their last day of camp and in one of their cell groups... They also experienced sitting in the back of a little Suzuki jeep for over 12 hours as we drove into the interior to visit with a church to see the possibilities for doing some medical ministry.... then turned around and sat over 12 hours on the trip back to Managua the following day... Fun times!!....

It has been good to be back in Nicaragua and meet with the leadership and try to encourage them in their ministry. The church in Managua has taken on Santos as part of their staff, and is covering all of their staff and operational expenses while continuing to expand their missions outreach. Three more new home churches have been started in the last few months and they

are looking into other areas to begin ministries. In October Javier and Eliane from Lima, Peru will be here in Managua for a couple of weeks, preaching and encouraging the church in missions.

Alamikamba... area where a church meets.

Had to cross several rivers to get back.

The leadership of the Managua church recently decided to begin remodeling their rest rooms as a first stage in several projects they want to accomplish. After completion of that they will work towards finishing up their main worship center which will consist of painting, replacing some windows and putting tile on the floor.

Changing to LED lights in youth building.

Enjoying an early breakfast on the road.

Bette and I are looking forward to being in Paraguay the rest of this year and I will be back in Managua when our medical team comes the first of February. If you would be interested in coming to be a part of the team let me know and I will put you in contact with the medical team leaders...

Keep us in your prayers... Love... Billy and Bette
